Bureau of
Fire Protection

F. SIGNIFICANT ACCOMPLISHMENTS

1.	Activated Six (6) Municipal Fire Stations in Sulu.	See F.1
2.	Implemented “Adopt A Colleague: Driving Skill Tuorial Program”	See F.2
3.	Facilitated the Grant of Donation for the Construction of the Three Storey Jolo Fire Station Building amounting to P11 Million Pesos.	See F.3
4.	Founder and Incorporator of Jolo Emergency Rescue Network, Inc.	See F.4
5.	Lecturer and Reviewer in Shariah Law Trainings.	See F.5
6.	Provision of Electrical Safety Installation and Maintenance Training NCII to BFP Sulu personnel, supported by MOU with MBHTE-TESD.	See F.6
7.	Drafted the Regional Directive on Bloodletting Program to institutionalize regular blood donation of BFP BARMM Personnel.	See F.7
8.	Formulated the Regional Directive on Tree Planting and Growing Activities	See F.8
9.	Conducted Knowledge and Skills Sharing Program in Fire Safety Inspection, Fire Arson Investigation, and Petty Cash Fund Liquidation.	See F.9
10.	Recipient of AFPMBAI Ambulance as a result of request.	See F.10
11.	Successful Acquisition of Firefighting tools and equipment as a result of request to MP Narciso C. Yu-Ekey with an amount totalling P1Million pesos.	See F.11
12.	Crafted the request to integrate Hijab or Headscarf on uniforms of Muslim Female BFP which was approved by the Chief, BFP.	See F.12
13.	Brought the Barangay Bus-Bus CFAG to compete in the National Fire Olympics after winning in the local level.	See F.13
14.	Conducted the 1st Sulu Fire Rescue Olympics (CFAG Category) participated by thirteen CFAG barangays coming from different municipalities of Sulu.	See F.14
15.	Conducted the 1st Sulu Fire Safety Expo at Notre Dame of Jolo College.	See F.15
16.	Organized and Facilitated the Fire Safety Youth Squad and Kiddie Fire Marshal Trainings.	See F.16
17.	Consistent Lecturer and Tactical Officer to Newly Absorbed FO1.	See F.17
18.	Coordinated with DENR for the Fire Station lot titling.	See F.18
19.	Participated in the Fire Square Roadshow	See F.19
20.	Engaged in Firefighters’ Combat Challenge	See F.20
21.	Rescue Assistance during Flash Floods	See F.21
22.	Contributed to the Drafting of the IRR of the BFP Modernization Law	See F.22
23.	BFP-Sulu was the First to Receive MILG Safety Seal during the Covid Pandemic	See F.23
24.	Partnered with the Asia America Initiative in many worthwhile endeavors.	See F.24
25.	Coordinated with Philippine Statistics Authority for the National Identification Cards registration at Fire Station exclusively for BFP Sulu Personnel and their dependents.	See F.25
26.	Media Engagement through Radio Programs and BFP Live TV	See F.26
27.	Organized Weekly Ramadan Islamic Symposium at OPFM Sulu during the holy month of Ramadan.	See F.27
28.	Search and Rescue operations following the C130 crash in Patikul, Sulu.	See F.28
29.	Rescue of Suicidal Person in Quirino Bridge, Cotabato City.	See F.29
30.	Resource Speaker on Filing of Arson Cases	See F.30
31.	Conducted BFP-Sulu Sports Fest	See F.31
32.	Strengthened Partnership with Sulu Electric Cooperative to ensure electrical safety.	See F.32
33.	Response to twin Blast at Jolo Carmel Cathedral	See F.33
34.	Conducted Drills and Simulation Exercise to maintain readiness.	See F.34
35.	Other Worthy Trainings Conducted.	See F.35

HONORING BRAVERY. CELEBRATING HEROES.

SM PRIME HOLDINGS, INC. in partnership with BUREAU OF FIRE PROTECTION

36.	Organized Sports Fest for BFP-Sulu personnel	See F.36
37.	Participated in Brigada Eskwela and Other Clean Up Drive	See F.37
38.	Rendered Courtesy Calls to various LCEs and Stakeholders	See F.38
39.	Active in the response and prevention of spread of corona virus during the COVID 19 Pandemic.	See F.39
40.	First Aid Kit Distribution to Different Marshals and Partner Non Government Organizations	See F.40
41.	Standby Medics during Sulu Provincial Athletic Association Meet and other Activities in Jolo.	See F.41
42.	Conducted several Occular Inspections and ORSITE to lower units.	See F.42
43.	Continuous Physical Fitness Activities of Personnel and Conduct of Physical Fitness Test.	See F.43
44.	Other Community works and Compliances	See F.44

HONORING BRAVERY. CELEBRATING HEROES.

2019

ACTIVATION OF SIX MUNICIPAL FIRE STATIONS IN SULU

I view this accomplishment as a significant milestone due to the challenging journey involved in meeting the activation requirements for our new fire stations. The process required not only the construction of six fire stations but also the acquisition of fire trucks and the hiring of additional personnel. These fire stations were funded through the Transition Investment Support Program (TISP), which aimed to enhance our emergency response capabilities. Despite these initial steps, the path to fully operational stations was fraught with obstacles, particularly with the procurement of fire trucks.

During the procurement phase, we faced a major setback when the TISP funds were frozen, leaving our newly constructed fire stations without the crucial fire trucks they needed. In response to this challenge, we explored

alternative solutions, including reaching out to the Bureau of Fire Protection-National Capital Region (BFP-NCR) to request any available surplus trucks. We even proposed that the Local Government Unit (LGU) in our region, ARMM, cover the transportation costs. Unfortunately, only Patikul in Sulu was able to secure a truck from BFP-NCR under these circumstances.

The situation took a promising turn during a major conflagration in Jolo when President Duterte was present. Seizing the opportunity, we presented our urgent request for fire trucks directly to him. President Duterte listened attentively and committed to providing us with four fire trucks. Although there was a period of uncertainty and delay, we diligently followed up on the promise. Our perseverance paid off when we learned that the President had instructed the Chief of the BFP to allocate four fire trucks for Sulu. Consequently, the Chief directed Region 12 to transfer four surplus but still serviceable trucks to us.

By 2021, we initially believed that President Duterte's promise had been fulfilled with the arrival of the trucks from Region 12. However, we were later informed through the Special Allocation Release Order (SARO) that the Regional Bids and Awards Committee (BAC) would oversee the procurement process for an additional four trucks specifically for Sulu. This development allowed us to further bolster our fleet and redistribute the trucks among our stations, enhancing our ability to provide effective fire protection services.

Despite facing challenges with inadequate personnel, we remained committed to expanding our reach and delivering quality service to the Tausug community. This dedication led to the formation of our advocacy, OneBFPsULU, which emphasizes our collective effort and willingness to sacrifice for the greater good of the Bureau of Fire Protection in Sulu. Our success in overcoming these obstacles and improving our fire service capacity reflects our resilience and unwavering commitment to our mission.

ADOPT A COLLEAGUE: DRIVING SKILL TUTORIAL PROGRAM

The impetus for creating this program stemmed from the critical issue of having an insufficient number of fire truck drivers. Driving skills are essential for firefighters, not only for operating fire trucks but also for ensuring effective emergency responses. With a limited pool of drivers, personnel were confined to their roles and unable to take on other responsibilities, which created a significant operational challenge. This situation also meant that drivers could not leave their posts or take leave without risking a shortage of qualified personnel to operate the trucks, further complicating emergency response efforts.

To address these challenges, I introduced a skills-sharing initiative aimed at expanding our pool of trained drivers. The "Adopt a Colleague" program was designed to foster a collaborative learning environment where experienced drivers could pass on their skills to other firefighters. By systematically identifying existing drivers and those with potential driving skills, we created a training framework where seasoned drivers mentored non-drivers. This approach not only increased the number of qualified drivers but also enhanced the overall skill set of our personnel, thereby improving our readiness and flexibility during emergencies.

The program's structure allowed for flexible training schedules. Firefighters could utilize their spare time, including night shifts or personal free time, to participate in the training.

To facilitate this, we made arrangements for the use of the smallest fire truck from the Office of the Provincial Fire Marshal (OPFM) from 8 p.m. to 10 p.m., and encouraged the use of personal vehicles for practice. Additionally, I volunteered an old blue owner-type vehicle for training purposes, which further supported the initiative. This flexibility ensured that training could occur without disrupting regular duties and allowed participants to learn at their own pace.

The response to the program was overwhelmingly positive. Many non-drivers were eager to participate, driven by the

aspiration to acquire driving skills and eventually own their own vehicles. This enthusiasm highlighted the program's impact, not only in enhancing operational capacity but also in motivating and empowering our personnel. By investing in their development and providing practical learning opportunities, we fostered a sense of growth and achievement among the firefighters.

In summary, the introduction of the "Adopt a Colleague" driving skills initiative was a proactive and strategic move to address the shortage of fire truck drivers and improve our emergency response capabilities. By leveraging the expertise of experienced drivers and creating a supportive learning environment, we significantly increased the number of qualified personnel. This program not only resolved operational challenges but also contributed to the professional growth and morale of our team, ultimately enhancing our overall effectiveness in emergency situations.

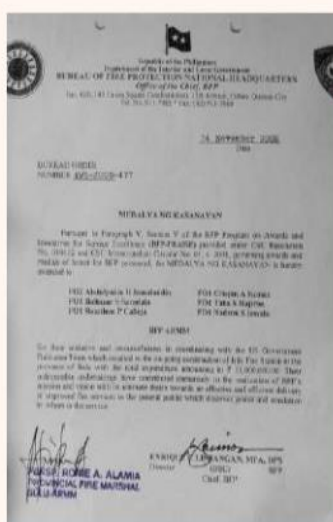

THREE STOREY FIRE STATION

I played a pivotal role in the construction of a new, three-story Jolo Fire Station building, which has significantly enhanced the infrastructure for fire and emergency services in our community. This modern facility has provided firefighters with state-of-the-art resources and ample space to perform their duties more efficiently. As a result, the improvements have led to faster response times and a higher level of safety for the community. This accomplishment underscores my commitment to advancing fire service infrastructure and ensuring better accessibility for emergency services.

The story behind this construction project is a testament to innovative thinking and proactive problem-solving. During my training with the US-Balikatan Team for the Joint Medical First Responder Course, we initially sought a small space to accommodate our medical first responders. Recognizing the limitations of the existing fire station, which was a half-concrete, half-wood structure with inadequate facilities, I proposed an alternative solution: instead of merely requesting a small room, why not advocate for a complete renovation or construction of a new fire station that could also include space for our first responders? This idea was aimed at addressing both the immediate needs of medical responders and the long-standing deficiencies in fire station infrastructure.

To bring this vision to fruition, I enlisted the help of a classmate from law school who was an architecture graduate, Abuzamier Asanji. He kindly designed a comprehensive building plan and blueprint, which we included in our request for funding and approval. Despite initial skepticism, our proposal gained traction, culminating in a groundbreaking ceremony attended by the then US Ambassador to the Philippines Kristy Kenney. The realization of this project was a significant milestone, and the construction ultimately cost Eleven (11) Million pesos. This was a substantial investment, especially at a time when even minor repairs to fire stations were challenging to secure.

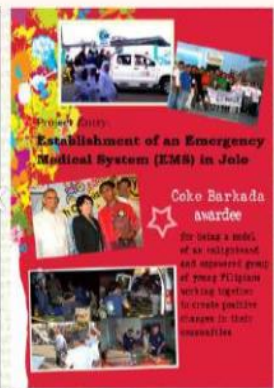

The successful completion of this fire station stands in stark contrast to the more cumbersome process of obtaining funding for similar projects in the past. At the time, navigating the bureaucratic hurdles for even basic repairs was difficult. However, the advancements in the Bureau of Fire Protection's modernization efforts have streamlined these processes, making it easier to secure funding and manage construction projects. This evolution reflects broader improvements in how fire service infrastructure is managed and funded.

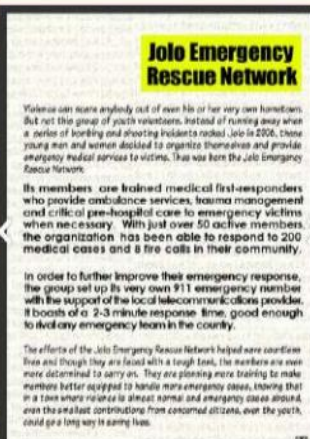

FOUNDER AND INCORPORATOR OF JOLO EMERGENCY RESCUE NETWORK, INC. F.4

The Jolo Emergency Rescue Network (JERN) was founded in response to a series of devastating bombing incidents in Jolo in 2006. My background as an active Red Cross volunteer during my college years, combined with my role at the Bureau of Fire Protection (BFP), inspired me to collaborate with friends from the Red Cross, the Local Government Unit (LGU), and the Philippine National Police (PNP) to address the urgent need for an organized emergency response system. We were a group of fifteen, and our collective commitment led us to a fifteen-day training course conducted by US doctors on Joint Medical First Responders. This experience solidified our bonds and motivated us to establish the Jolo Emergency Rescue Network, aiming to enhance emergency medical services in our community.

Recognizing that emergency medical services are a crucial component of the BFP's mandate, and acknowledging that none of us had formal medical training at that time, I felt compelled to bridge this gap. As an active member of JERN, my involvement allowed me to contribute significantly to both the organization and my role as a firefighter. By integrating my volunteer work with JERN into my professional responsibilities, I could effectively address the needs of our community while fulfilling my duties as a Fire Officer 1 (FO1).

Our initial resources included backpacks provided by our US trainers, which served as our primary medical and rescue kits. Later, we successfully lobbied for an ambulance, supported by fuel allocations from the LGU of Jolo. This critical support allowed us to offer free ambulance services for patients requiring transport from home to hospital or from hospital to wharf for tertiary treatment in Zamboanga. Our commitment to accessibility ensured that individuals from all walks of life could benefit from our services.

Our efforts gained wider recognition when we entered the Search for Ten Accomplished Youth Organizations (TAYO) competition with our project titled "Establishment of Emergency Medical System in Jolo." I had the honor of representing JERN at the regional level in Davao, where we were selected as finalists. At the national level, our presentation at the Asian Institute of Management earned us the title of National Winners, along with the prestigious Coke Barkada Award for Volunteerism. This recognition underscored the impact of our work and the dedication of our volunteers.

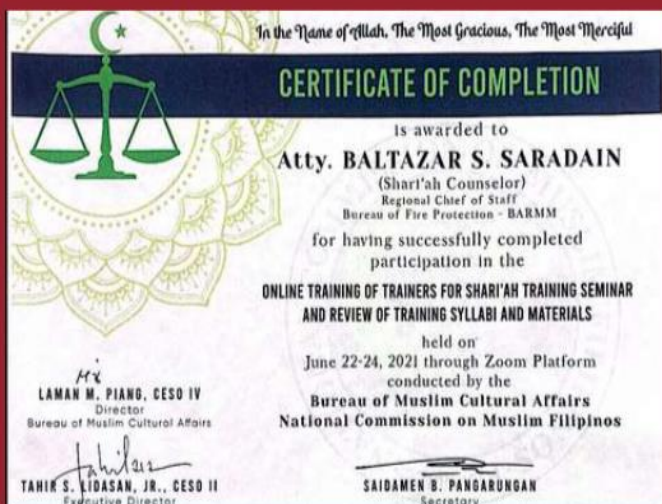

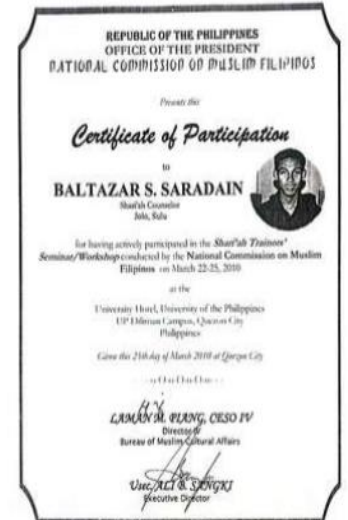

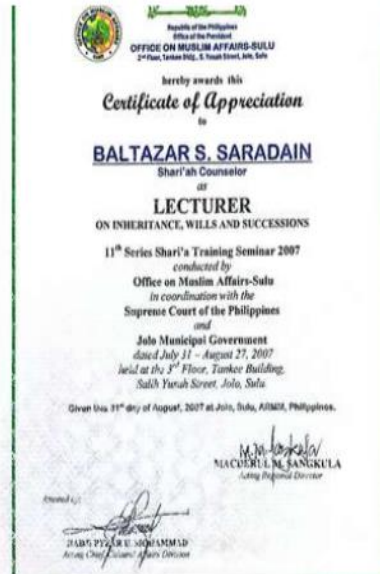

As the organization grew, we formalized our operations by registering JERN with the Securities and Exchange Commission (SEC) as a non-profit entity. In my dual role as corporate secretary and incorporator, I played a key part in ensuring the organization's sustainability. Our continued excellence was acknowledged with the Gawad Kalasag Award from the Office of Civil Defense, an honor we have received twice. JERN's success is also reflected in the active involvement of our members, who contribute as force multipliers during fire incidents and receive training in basic firefighting. Many JERN members have also joined the BFP, further integrating our community's emergency response efforts.

In conclusion, the Jolo Emergency Rescue Network's achievements highlight the transformative impact of grassroots initiatives in enhancing community resilience and emergency preparedness. My role in founding and nurturing JERN demonstrates a commitment to local needs through collaboration, innovation, and leadership. This experience not only strengthened emergency response capabilities but also empowered the youth, fostering a sense of civic responsibility and engagement.

LECTURER AND REVIEWER IN SHARIAH LAW TRAINING

Holding both the regular BAR and Shariah BAR licenses has instilled in me a strong sense of responsibility to share my legal knowledge, particularly in the realm of Shariah Law, which is integral to my identity as a Muslim. This commitment is reflected in my active role as a lecturer and reviewer for Shariah Law Training sessions hosted by the National Commission on Muslim Filipinos (NCMF). Through this role, I contribute to the broader understanding and application of Shariah law within our community. By educating others, I support the development of competent individuals who are well-versed in Shariah principles, thus fostering a more informed and cohesive community. My dedication to Shariah Law education is rooted in my own early experiences. As a Shariah Law Trainee with the then Office on Muslim Affairs, I received foundational training that paved the way for my success in the Special Shariah BAR examination. Achieving a top score of 90.15% in this challenging exam was not only a personal milestone but also an opportunity to give back to the institution that initially nurtured my skills. This accomplishment underscores my commitment to excellence and my desire to contribute meaningfully to the field of Shariah law.

The recognition and appreciation I have received from the NCMF further validate the impact of my efforts. Being regarded as a preferred lecturer and reviewer by the NCMF highlights the effectiveness and relevance of my teaching. This acknowledgment is a testament to the quality of my contributions and reinforces my dedication to advancing the understanding of Shariah law. It also demonstrates my alignment with the Bureau's mission to serve the community with expertise and dedication.

In summary, my involvement in Shariah Law Training and the recognition I have garnered from the NCMF exemplify my commitment to legal education and cultural initiatives. By leveraging my expertise in both regular and Shariah law, I aim to empower others and support the development of knowledgeable individuals within the community. This role not only reflects my personal values and professional achievements but also contributes to the Bureau's mission of fostering excellence and service in legal education.

ELECTRICAL SAFETY INSTALLATION AND MAINTENANCE TRAINING NCII

F.6

(SUPPORTED BY MOU WITH MBHTE-TESD)

I spearheaded the facilitation of a Memorandum of Understanding (MOU) with the Technical Education and Skills Development Authority (TESDA) to provide our firefighters with specialized training in Electrical Safety Installations and Maintenance NCII. This initiative was designed to significantly enhance the technical expertise of our firefighting personnel. By equipping them with advanced knowledge in electrical safety, we aimed to address a critical area of fire risk and improve their preparedness for handling electrical emergencies. The outcome of this project not only bolstered the capabilities of our firefighters but also played a crucial role in reducing the incidence of fire-related accidents caused by electrical faults, thereby enhancing overall community safety.

The MOU outlines a mutually beneficial agreement between the Provincial Training Center in Sulu, under the Ministry of Basic, Higher, and Technical Education - Technical Education and Skills Development (MBHTE-TESD), and the Bureau of Fire Protection-Sulu. According to the provisions of the MOU, TESDA is responsible for delivering specialized training programs, including Electrical Safety Installation and Maintenance NCII, to our BFP personnel. In exchange, BFP-Sulu commits to providing Fire Safety Awareness and Basic Life Support training to TESDA staff and their graduates. This exchange of knowledge fosters a continuous partnership between the two agencies and strengthens our collaborative efforts in promoting safety and technical proficiency. The establishment of this partnership has proven to be highly effective. Since the inception of the MOU, BFP-Sulu has successfully produced 46 graduates from the scholarship program, who are now applying their newly acquired skills in their professional roles. These graduates have made significant contributions by conducting thorough fire safety inspections and ensuring the safety of electrical systems in homes and other establishments. Their enhanced expertise not only supports the Bureau's mission of preventing fire incidents but also benefits the community by raising awareness and improving safety standards.

BFP BARMM Sulu Provincial Office
Sep 10, 2022

09/14/2022

Signing of MEMORANDUM OF UNDERSTANDING between BFP SULU and MBHTE-TESDA SULU PROVINCIAL TRAINING CENTER, Represented by Sulu Provincial Fire Director SUPT BALTAZAR S SARADAIN, BFP & MBHTE-TESDA Sulu Provincial Center Administrator, ENGR. ABDUL GHEFARI K. Allama.

#OneBFPsulu
#SkillsEnhancement

The significant point of the aforementioned event was the reacquainting of the Skill Development Training on Electrical Installation & Maintenance (NC-II) as the standard course composed of relevant outline to enhance one's skills and knowledge, especially the BFP Personnel; to strengthen preventive fire safety measures, hence, to sustain fire safety among households and business firms within the Province of Sulu.

Nevertheless, the BFP Sulu-BARMM is always grateful to the Ministry of Basic Higher & Technical Education, Technical Education & Skills Development (MBHTE - TESD) Sulu Provincial Office for the genuine support and continuous collaboration.

#OneBFPsulu

The ongoing relevance of the MOU is evidenced by its continued effectiveness and the addition of new, pertinent courses for firefighters. This enduring collaboration demonstrates the commitment of both

TESDA and BFP-Sulu to maintaining high standards of safety and technical proficiency. By adapting the training programs to address emerging needs and challenges, the MOU ensures that our personnel remain well-prepared and knowledgeable in all aspects of fire safety and emergency response.

In summary, the MOU with TESDA represents a significant advancement in the professional development of our firefighters and the enhancement of community safety. By providing targeted training in electrical safety and fostering a strong partnership with TESDA, we have created a robust framework for ongoing improvement and collaboration. This initiative underscores our dedication to not only advancing the skills of our personnel but also ensuring a safer environment for our community through proactive and effective training programs.

REGIONAL DIRECTIVE
FD-1000-01

REGULATORY DOCUMENT
BUREAU OF FIRE PROTECTION
BANGSAMORO AUTONOMOUS REGION

1. PURPOSE
This directive is issued to provide a framework for the implementation of the bloodletting program in the BFP-BARM. The purpose is to ensure a steady and reliable supply of blood for medical emergencies and health services.

2. SCOPE
This directive applies to all BFP-BARM personnel, including those in the field and those in the administrative offices.

3. RESPONSIBILITIES
The BFP-BARM personnel are responsible for the implementation of this directive. The BFP-BARM personnel are also responsible for the monitoring and evaluation of the program.

4. IMPLEMENTATION
The BFP-BARM personnel are to implement the bloodletting program in a systematic and organized manner. The BFP-BARM personnel are also to ensure the safety and health of the donors and the recipients.

5. MONITORING AND EVALUATION
The BFP-BARM personnel are to monitor and evaluate the implementation of the bloodletting program. The BFP-BARM personnel are also to report the results of the monitoring and evaluation to the BFP-BARM.

6. REFERENCES
The BFP-BARM personnel are to refer to the following documents for more information:
- BFP-BARM Manual
- BFP-BARM Policy
- BFP-BARM Procedure

7. APPROVAL
This directive is approved by the BFP-BARM personnel.

8. SIGNATURE
The BFP-BARM personnel are to sign this directive.

9. DATE
The BFP-BARM personnel are to date this directive.

10. DISTRIBUTION
The BFP-BARM personnel are to distribute this directive to all BFP-BARM personnel.

11. REVISION
The BFP-BARM personnel are to revise this directive as needed.

12. ATTACHMENTS
The BFP-BARM personnel are to attach the following documents to this directive:
- BFP-BARM Manual
- BFP-BARM Policy
- BFP-BARM Procedure

Regional Directive on Blood Letting Program

I took the initiative to draft a regional directive aimed at institutionalizing regular bloodletting activities across our region. This initiative was driven by the need to ensure a steady and reliable supply of blood for medical emergencies, thereby enhancing community health and preparedness. While the national headquarters had issued a memorandum on bloodletting, it was often perceived as a one-time compliance measure rather than an ongoing commitment. My goal was to embed these activities into our regular operations, making them a consistent and integral part of our service to the community.

To achieve this, I developed a Regional Directive that established a structured and systematic approach to bloodletting drives. The directive not only mandated the regular scheduling of bloodletting activities but also outlined detailed procedures for maintaining

records, ensuring compliance. To achieve this, I developed a Regional Directive that established a structured and systematic approach to bloodletting drives, and coordinating efforts regionwide. Each station or provincial office's schedule was specified in the directive, detailing when and where they were expected to participate in bloodletting activities within their Area of Responsibility (AOR). This structured approach ensured that the initiative was not only well-organized but also effectively integrated into our routine operations.

The implementation of this directive has transformed bloodletting activities from sporadic events into regular, scheduled occurrences throughout the region. The establishment of a monitoring system within the Health and Safety Services (HSS) has further streamlined the process. A dedicated regional staff member is responsible for overseeing compliance and reminding marshals of their scheduled bloodletting activities, thus eliminating the need for additional memoranda or repeated instructions from regional management. This efficient system ensures that bloodletting remains a continuous and reliable effort, contributing to a sustainable supply of blood for those in need.

The impact of institutionalizing these bloodletting activities has been significant. By embedding regular blood donation drives into our operational framework, we have improved the community's access to vital blood resources and reinforced the importance of

collective responsibility in health care. This initiative exemplifies a proactive approach to community service, demonstrating our commitment to not only meeting immediate needs but also fostering a culture of ongoing support and engagement.

The regional directive for regular bloodletting activities represents a strategic enhancement of our community health efforts. By transforming ad-hoc blood drives into an organized, recurring program, we have ensured a steady and reliable blood supply for emergencies and medical needs. This initiative highlights our dedication to improving health outcomes and exemplifies effective organizational practices in service delivery. The CRMC recognized BFP-BARM as one of the Top 3 government agencies for its outstanding contribution to blood donations.

Regional Directive on Tree Planting and Tree Growing Activities

I took the initiative to draft a Regional Directive focused on establishing and formalizing tree planting and growing programs. This initiative was designed to promote environmental sustainability, enhance air quality, and support ecological balance. Recognizing that environmental stewardship is a key responsibility of firefighters, the directive sought to integrate tree planting into our regular activities, underscoring our commitment to conservation alongside our primary duties.

The Regional Directive was crafted to institutionalize tree planting and growing activities as a regular and structured component of our operations. It clearly delineates the roles and responsibilities of various entities, including the Regional Office, the Office of the Provincial Fire Marshal (OPFM), and the City or Municipal Fire Stations. By defining these roles, the directive ensures that each unit understands its part in the initiative and contributes effectively to its success. This structured approach facilitates coordination and maximizes the impact of our environmental efforts.

To enhance the effectiveness of the program, the directive mandates collaboration with the Ministry of Environment, Natural Resources, and Energy (MENRE) for sourcing seedlings and identifying suitable planting sites. This partnership ensures that we have access to quality seedlings and appropriate locations for planting, which are crucial for the program's success. The directive also includes a detailed schedule and specifies the number of seedlings required for planting, which must be documented and monitored to track progress and measure outcomes.

By formalizing and institutionalizing the tree planting initiative, the directive not only fosters a culture of environmental responsibility within the firefighting community but also contributes to broader sustainability goals. The systematic approach to planting and growing trees ensures that these activities are carried out consistently and effectively, creating a lasting positive impact on the environment. Through this directive, we demonstrate our commitment to both protecting and enhancing our natural surroundings while fulfilling our role as stewards of the environment.

The Regional Directive on tree planting and growing programs represents a strategic effort to integrate environmental conservation into our regular operations. By clearly defining roles, fostering collaboration, and establishing a structured approach to planting, we ensure that our environmental initiatives are both effective and sustainable. This program not only supports ecological balance but also exemplifies our dedication to environmental stewardship as an integral part of our mission.

KNOWLEDGE AND SKILLS SHARING PROGRAM

KNOWLEDGE AND SKILLS SHARING IN FIRE SAFETY INSPECTION KNOWLEDGE AND SKILLS SHARING IN FIRE ARSON INVESTIGATION KNOWLEDGE SHARING IN PETTY CASH FUND LIQUIDATION

F.9

During my tenure, I identified and addressed several critical issues within our team: insufficient knowledge of Fire Safety Inspection among personnel, reluctance to engage in arson investigation due to a lack of technical expertise, and challenges faced by Special Disbursing Officers in managing petty cash liquidation due to limited business-related education. Recognizing these gaps, I implemented targeted strategies to enhance our team's capabilities and improve overall performance in these areas.

One major issue was the lack of understanding and familiarity with Fire Safety Inspection procedures among our staff. To address this, I organized a series of focused seminars and training sessions to provide foundational knowledge. However, realizing that formal training alone might not be sufficient, I introduced a "Knowledge Sharing and Skills Sharing" initiative. This program encouraged more experienced personnel to mentor their colleagues, facilitating hands-on learning and practical insights. This approach not only helped bridge the knowledge gap but also fostered a collaborative environment where staff members could confidently rely on each other for guidance.

Similarly, in the realm of arson investigation, the complexity of the tasks led to hesitation among staff members. Many were reluctant to take on these roles due to their lack of specialized training. To overcome this, we extended our Knowledge Sharing initiative to include arson investigation. By involving seasoned investigators in training sessions and practical demonstrations, we provided invaluable exposure to the intricacies of the field. This not only improved the technical competence of our team but also increased their willingness to engage in arson investigations, ultimately enhancing our investigative capabilities.

Another significant challenge was the burden placed on Special Disbursing Officers (SDOs) regarding petty cash liquidation. Many SDOs lacked formal education in business management, which complicated their tasks. To address this, we tailored our Knowledge Sharing sessions to include practical training on financial management and petty cash handling. We also paired less experienced officers with those who had more expertise in

business practices. This peer-to-peer learning approach not only improved their technical skills but also helped build confidence in managing financial tasks.

The implementation of these initiatives has been highly successful. Observing my staff grow more confident and proficient in their roles has been deeply rewarding. The creation of a supportive learning environment, where experienced personnel are readily available to assist their colleagues, has fostered a sense of camaraderie and continuous improvement. This approach has not only enhanced the individual skills of our team members but also contributed to the overall effectiveness of our operations.

In summary, addressing the challenges of insufficient knowledge in Fire Safety Inspection, arson investigation, and petty cash management required a multifaceted approach. By combining formal training with targeted knowledge sharing and practical mentorship, we effectively bridged the skills gap and improved overall performance. This strategy not only equipped our staff with the necessary expertise but also created a supportive and collaborative work environment, demonstrating our commitment to excellence and continuous development.

Jolofire Station Pis Jolo MunGovt Kerkhar Tan Baltazar Saradain

Republic of the Philippines
Department of the Interior and Local Government
BUREAU OF FIRE PROTECTION
BULUWANGAL OFFICE - BARMM
Julu Fire Station Bldg., Villeda City, Jolo, Sulu
Contact No.: 0971-857-2000
Email address: bfpbuluwal@bfp.gov.ph

08 March 2022

HON. NARCISO C. YU EKEY
Member of Parliament
BARMM
Cotabato City

Sir:

Greetings of Peace!

On 03 February 2020, a destructive fire ravaged 1,343 houses in three adjacent barangays in Jolo, Sulu, i.e., *Barangay Chinese Pier*, *Barangay Tuley* and *Barangay Tuley*. Tuley leaving thousands of families homeless and an estimated aggregate loss to property of nearly - eight million pesos (P8,000,000.00). Two years ago, that was 24 July 2018, equally devastating fire burned 1,773 houses in two other adjacent barangays in the municipality, i.e., *Barangay Villeda City* and *Barangay Bus* - Bus incurring a much bigger property loss of more or less thirty - five million pesos (P35,000,000.00) - the estimate excludes building contents. These two incidents are not the only horrendous fires that hit Jolo. As per station record, *Barangay Villeda City*, *Barangay Asturias*, *Barangay Bus* - Bus, *Barangay Tuley*, and *Barangay Chinese Pier* did suffer enormous losses due to fires in the past years.

It must be understood that Jolo is the most densely inhabited municipality in the Province of Sulu. Of the eight (8) barangays in Jolo, five (5) have similar setup where most houses are built from light materials and stood on posts along coastlines. The three other, though in land areas, are also very heavily occupied. The high housing density in all barangays in Jolo is mainly attributed to the growing number of population and large number of migrant families from neighboring municipalities seeking security and access to social services such as education and hospitalization. This is why despite the high risks, residents continue to build houses in these barangays.

Of the 13 cases of bombings that transpired in Jolo over the last 15 years - the Our Lady of Mt. Carmel Cathedral Bombing being the most recent claiming 22 lives and wounding no less than 100 others - and in several emergencies such as flashfloods, vehicular accidents and shooting incidents recorded, the Emergency Medical and Rescue Services (EMRS) team of Bureau of Fire Protection - Sulu either responded by means of firetrucks, personal vehicles e.g., motorcycles or riding along with other responding ambulance from other agencies that share the same goals. The BFP - Sulu has long been waiting not only for fire trucks and ambulance but also tools and equipment necessary in its emergency responses. We need them in our emergency operations. The flashfloods that submerged 8 of 8 barangays in Jolo in 2008 killing 7

and trapping hundreds of residents, the enticement of trapped victims when huge waste trucks toppled and fell upon houses underneath in 2015, another flashflood in 2015 affecting some 4000 families. The extraction of victims and salvaging of properties were laborious. Much time and efforts were expended and lesser sufferings and more lives could have been saved had we been equipped with these tools and equipment.

Please consider this letter as our humble request for firefighting and rescue tools and equipment to further our saving lives and alleviation of sufferings mission. This request for firefighting and rescue tools is founded on our grim experiences during emergencies and whether we like it or not, emergencies do happen. If they do, we, the personnel of BFP - Sulu are always on the frontline because it is not just our mandate, but a moral obligation to be of help.

We know there are genuine people out there who have disposition to help. Please contact us at mobile no. 9971-855-1831 or email bfpbuluwal@bfp.gov.ph and facebook account Bfp-Barmm Cotabato City Sulu if you need more information as regards this concern.

The List of firefighting and rescue tools is provided herewith in a separate sheet.

Thank you very much!

Respectfully yours,

SUPT. BALTAZAR S. SARADAIN
Provincial Fire Director

BFP UNIFORM COMMITTEE
RESOLUTION NO. BFPUC-2022-03

A RESOLUTION FORMALLY RECOMMENDING TO THE CHIEF, BUREAU OF FIRE PROTECTION THE APPROVAL OF THE HIJAB/HEADSCARF FOR BFP MUSLIM FEMALES

WHEREAS, by virtue of Bureau Order No. COM-2021-072 dated 12 November 2021, the BFP Uniform Committee has been reconstituted as the sole body designated to conduct research, develop designs and formulate policies on BFP Uniforms including its insignia, badge and other accessories to be worn by the uniformed personnel of the Bureau of Fire Protection (BFP);

WHEREAS, CSUPT JERRY C LAMANERO proposed to integrate the hijab or headscarf in all mandatory uniforms of BFP Muslim females to the BFP Uniform Committee headed by Chairperson, CSUPT LEONIDA G ROSALES, MM;

WHEREAS, the Uniform Committee recognizes and accepts our BFP Muslim females to freely express and practice their religion without prejudice, in peace and harmony within our organization;

WHEREAS, the hijab or headscarf shall be worn by all Muslim females in all BFP Uniforms as part of their freedom of expression and freedom of religion;

WHEREAS, Vice Chairperson, CSUPT NALYN A BELONDO presented different designs of the hijab/headscarf and conducted a poll in BFP Regions 5, 12 and BARMM as they have the most concentrated BFP Muslim females;

WHEREAS, the Uniform Committee convened for the discussion and approval of the hijab/headscarf discussing 1 in detail in technical specifications and make, especially its material, color and design;

WHEREAS, the hijab or headscarf for BFP Muslim females shall have its appearance and technical specifications as hereby presented;

General Description:

WHEREAS, the hijab or headscarf to be worn by BFP Muslim females shall be in plain black color, cotton fabric, rectangular shape, 160 cm x 110 cm in size.

WHEREFORE, by it RESOLVED, as it is hereby RESOLVED, that based on the attached resolutions, the BFP Uniform Committee strongly recommends to the Chief, Bureau of Fire Protection to the approval of the hijab/headscarf for BFP Muslim females.

Date this 27th day of April, 2022, at the Bureau of Fire Protection, National Headquarters, Quezon City, Philippines.

MEMORANDUM
FOR: FIRE DIRECTOR LOUIE SURALTA PURICAN, CEO VI
Chief, Bureau of Fire Protection
Agham Road, Barangay Bagong Pag-asa, QC
THRU: CSUPT JERRY C LAMANERO, DSC
Regional Director, BFP - BARMM
SUBJECT: HIJAB AS PART OF THE UNIFORM FOR FEMALE MUSLIM BFP PERSONNEL
DATE: 12 AUGUST 2021

1. Generally, Hijab is a concept of modesty and privacy in Islam. It is a divine commandment given by ALLAH that is to be observed and practiced by believing Muslims (men and Women). There were two significant verses in the Quran that commands every Muslim to manifest the concept of decency and modesty in Islam.

2. The first verse, obliges man to observe modesty. "Say to the believing men that they restrain their eyes and guard their private parts. That is purer for them. Surely, Allah is well aware of what they do." (Qur'an 24:30). Then in the next verse of the same chapter, Allah (SWT) commands the Prophet Muhammad (SAW) to address the believing women. "Say to the Believing women that they should cast down their glances and guard their private parts (by being chaste) ...and not display their heavily-embroidered what is apparent, and they should place their head covers over their bosoms..." (Qur'an 24:31)

3. The second verse, 33:59 commands the Prophet (SAW): "O Prophet! Say to your wives, your daughters, and the women of the believing to bring down over themselves [part] of their outer garments. That is more suitable that they will be known and not be abused. And ever is Allah Forgiving and Merciful."

4. Hijab is an Arabic word which directly translates to "barrier". For many, Hijab would mean as the headscarf worn by Muslim Women to cover the head. But for believing Muslim women it is far more than that. The Quran does not only instructs believing Muslim women to cover their head, but also to guard their modesty by covering parts of their body considered as awrah (body parts which must be covered) and to be watchful of their actions and behaviors especially towards the non-mahram (unrelated individuals). Thus, Hijab is far more than just covering the head. However, wearing of hijab has always been subjected to different issues in the modern societies. It has been misunderstood as a symbol of oppression and terrorism.

Page 1

contingent" to be deployed in the different community affairs program in the region to foster peace and oneness of Philippine National Police (PNP) with the Muslim community.

13. In the international scene, fire service in the different country has now starting to end the stereotype of Muslim women wearing hijab in the service. In fact, there were fire departments in the western part of the globe that allows Muslim firefighters to wear their hijab and even designed a perfect uniform that would fit the dress code of Women in Islam. The UK, Canada, Virginia, City of Alabama were just but few of the states that has a detailed policy for the dress code of Muslim women in the fire service.

14. With this, it is possible for uniformed agencies to allow its Muslim women personnel to freely express and practice their religious worship (i.e. Wearing of Hijab while on uniform) without compromising the guidelines of uniform policy of the agency.

15. Hence, to guard the modesty, morality, privacy and decency of the Muslim female personnel of the Bureau of Fire Protection, we hereby appeal to the agency to consider the approval of wearing of Hijab as part of the uniform for Muslim female personnel.

16. For information and reference.

Request for appropriate action.

WARLITO P. DAUS, MPA-PS
 SRSUPT BFP
 Regional Director

The rapid response to flash floods that displaced many residents demonstrates FSUPT SARADAIN'S dedication to disaster response and recovery. Providing timely assistance during such crises mitigates the impact on affected communities and reinforces the BFP's role as a critical support agency in times of natural disasters.

IRR BFP MODERNIZATION LAW

Being part of the team that drafted the Implementing Rules and Regulations (IRR) of the BFP Modernization Law illustrates FSUPT SARADAIN'S active role in shaping policy and ensuring that modernization efforts align with practical needs. This involvement helps streamline operations and improve service delivery across the organization.

For such deed of heroism and bravery in the conduct of Rescue Operations in saving the life of unidentified individual who is about to commit suicide on top of the steel trusses of Quirino Bridge last 30 August 2018 . Such exemplary demonstration of deep sense of responsibility is worthy of distinguishment and recognition as it clearly exhibit an impressive reflection on the entire Bureau that the BFP personnel are ready to exert extra efforts in the performance of their sworn duties and responsibilities beyond the call of duty. The said notable act of selfless service reflects great credit upon themselves and worthy of emulation and praises by their peers in the fire service.

SHIRLEY SAUSAL TELERON, CE, MGM
SSUPT (DSC) BFP
Regional Director

The successful rescue of a suicidal person from Quirino Bridge illustrates FSUPT SARADAIN'S dedication to mental health support and crisis intervention. This act of compassion and intervention not only saves lives but also underscores the importance of addressing mental health issues within the community.

RESOURCE SPEAKER FILING ARSON CASE

Serving as a resource speaker on filing arson cases contributes to legal education and advocacy. By providing guidance on the legal process, FSUPT SARADAIN'S supports the enforcement of fire safety laws and helps ensure that justice is served in cases of arson.

STRENGTHENING PARTNESHIP WITH SULECO

Strengthening partnerships with Sulu Electric Cooperative (SULECO) to ensure electrical safety demonstrates FSUPT SARADAIN'S commitment to preventing electrical hazards. Collaborative efforts with utility providers contribute to safer communities and reduce the risk of fire incidents caused by electrical issues.

TWIN BLAST

Bfp Barmm Jolo FireStation is with محمد فرحان محمود عبدالعزيز.

August 24, 2020 · 🌐

Another Heart-breaking incident in the history of Tausug people happened today, 24 August 2020, wherein twin blasts shook the peaceful town of Municipality of Jolo.

As part of rendering public service to the community, BFP SULU Provincial Office headed by CINSIP (ATTY) BALTAZAR S SARADAIN, BFP and Jolo Fire Station personnel together led by INSP JAYSON T AHUON, BFP responded to a twin bombing incident that transpired at Serantes Street and Sanchez Street to give emergency medical and rescue services to the victims.

Furthermore, walking wounded victims who came and personally ask for medical assistance at Jolo Fire Station has been attended carefully and brought to the nearest hospital for further treatment.

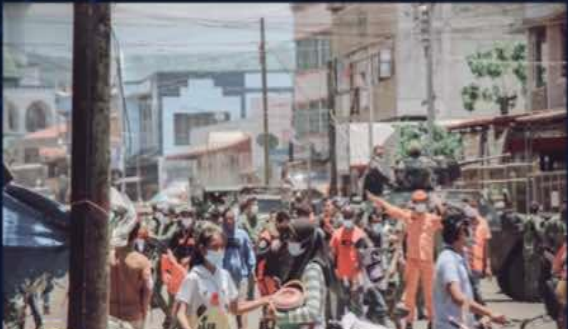

In times of emergencies such this, your BFP-Sulu has always been ready to selflessly commit to perform beyond its mandates.
